

### **Family Medicine Locum for Maternity Leave**

Seeking rural family medicine maternity leave locum starting October 30, 2023 for 5 months but some flexibility exists.

Location: Bracebridge, ON (Muskoka), two hours north of Toronto

Family Health Team practice with ~1200 patients - I usually do 5-6 half days a week in outpatient clinic. You could assort these half days however you like and make your own schedule. After-hours clinic is one Tuesday a month, and 1/12 Friday evenings.

I usually am MRP for my own patients if they are admitted to hospital - usually there are around 2. I don't usually have to go in every day. Nursing staff is excellent and calls appropriately. Weekend call coverage is 1 in 3 and split between other physicians in the office. Usually <6 patients for all three of us on weekends you are on. An hour or two to round and the rest of the day is yours.

My patient panel is very lovely – polite, respectful, well trained and grateful for care.

Lots of opportunity within the community to do other clinical activities if you want - e.g. hospitalist, ER, FM-OB, or palliative work at South Muskoka Memorial Hospital, adjacent to clinic

PS Suite EMR in clinic with Citrix in hospital

\$500 for each half day clinic with 100% third party billings + \$500 per week to cover administrative time for paperwork and inbox management

I usually do not have a nurse but could arrange one for you if you like.

Supportive physician colleagues within the office, and community is well supported by specialists - internal medicine x2, cardiology, urology x 2, general surgery x 2, fp anesthesia x2, fp-ob x4. Excellent collegial atmosphere within and outside of the hospital.

My clinic support staff includes my own MoA who knows my patients very well.

Great opportunity for a generalist who thinks they may be interested in rural family practice.

Please message if you are interested and want to know more.

Applicants are invited to submit a cover letter and CV to:
